

AARON - TERMS OF SERVICE AND USER AGREEMENT

Company: AARON View LLC, Utah, United States

Version: aaron_terms_2026_10_14

Effective Date: October 14, 2026

Last Updated: October 14, 2026

Contact: contact@aaronview.com

IMPORTANT INFORMATION

This agreement is between you and AARON View LLC ("Company," "we," "us" or "our") and governs your access to the AARON application and its available software features (the "Service"). Review the agreement before selecting "I agree." If you do not agree, decline and do not use the Service. The public website and waitlist have separate website terms; joining the waitlist alone does not constitute acceptance of this app agreement.

Trading involves risk of loss. Market observations, entry events, reference prices and position calculations do not guarantee an outcome or establish that a transaction is suitable for you. A displayed stop is not a broker order, and an alert is not confirmation of an execution.

Your account is personal. Do not share credentials, resell access or redistribute restricted market feeds or proprietary software. These restrictions do not prohibit honest reviews, lawful complaints or other protected disclosures.

1. ELIGIBILITY AND ACCEPTANCE

1.1. You must be at least 18 years old and have legal capacity to enter this agreement. You may not use the Service where doing so is prohibited by applicable law.

1.2. Provide accurate account information, protect your credentials and promptly report suspected unauthorized access. You remain responsible for activity you authorize through your account. Do not use another person's identity or account.

1.3. App access requires affirmative acceptance of the current agreement. We record the version accepted, document identifier, time, account identity and relevant technical request information to document that decision. An earlier acceptance is not recorded as acceptance of a later version without a new affirmative action.

2. WHAT THE SERVICE DOES

2.1. AARON analyzes market data and brings together selected assets, price observations, recorded entry events, charts, reference levels, notifications and position-planning calculations. Features depend on the plan, session, platform, permissions and data availability.

2.2. Diamond identifies an initial entry event; Gold and Silver identify subsequent retests in the recorded sequence. These categories are not quality ratings, credit ratings, win probabilities or guarantees of a new trading opportunity. A category can remain visible after its event. Check the event time and current setup state, separately from the latest price-observation time.

2.3. The Service may select assets for a session. An asset can have no valid entry, incomplete data, a pending confirmation or an invalidated setup. Searching for a symbol does not necessarily change the assets included in your access or session selection.

2.4. We may improve or change features and data sources. If a material change affects paid access, we will provide notice and any remedy required by applicable law or the purchase terms. Availability is not guaranteed continuously.

3. ANALYSIS AND POSITION PLANNING

3.1. The Service provides market-data analysis and reference calculations. It does not evaluate your complete financial situation, investment objectives, experience, obligations or ability to bear losses. A reference or calculation does not establish the suitability of an investment for you.

3.2. Position-planning features use inputs you provide, such as capital and risk settings. Planned shares, investment, gain and loss are calculations, not actual buying power, an account balance, a deposit or an execution result. Source targets and a position plan's targets can differ. Verify all inputs, costs and references before acting.

3.3. You decide whether, when and how much to trade. Verify current prices, account exposure and order details independently. Do not rely solely on the Service to make or monitor a financial decision. The Company does not assume custody of your funds by providing a planning calculation.

3.4. Nothing in this agreement excludes a duty or protection imposed by applicable law. Describing the Service as analysis software does not determine its regulatory classification or waive any rights you may have under securities or consumer-protection law.

4. MARKET AND EXECUTION RISKS

4.1. Trading and investing can result in loss of some or all invested capital. Margin, leverage and some short-selling or derivative strategies can result in losses greater than the amount initially committed. Use only funds whose loss you can afford without compromising essential expenses or financial obligations.

4.2. Gaps, volatility, trading halts, limited liquidity, fees, partial fills and slippage can materially affect execution. A reference stop or target displayed by AARON is not an order at your broker. Even an actual stop order may execute at a different price or fail to limit a loss as expected.

4.3. An entry touch, breakout confirmation, near-entry alert or setup-invalidated event describes a market observation or analytical state. It does not confirm an order submission, fill, cancellation or realized profit or loss. Only the broker's records establish order status and execution.

4.4. Opening a signal, chart, Account Execution or Broker view does not itself submit a trade. Any available broker action has its own connection, authorization and confirmation flow. Review that flow and the broker's terms before enabling or submitting an action.

5. DATA, CHARTS AND ALERTS

5.1. Data sources may use different timestamps, market coverage or update intervals. Information may be delayed, stale, revised, incomplete or incorrect. Charts and recorded events can differ. Verify the source and observation time.

5.2. Notifications depend on account settings, device permissions and registration, network connectivity, operating-system behavior and external providers. Delivery can fail or occur after the relevant event. No notification is guaranteed to arrive or remain actionable.

5.3. Do not depend on an alert or the Service as your sole risk control. Maintain independent access to your broker and a method of monitoring open positions. Outages, software defects or security incidents can interrupt the Service.

6. HISTORICAL, SIMULATED AND PROJECTED RESULTS

6.1. Past performance does not predict or guarantee future results. Historical screenshots, example notifications, demonstrations, paper trades, backtests and simulations are not live opportunities or evidence of the results you will achieve. Read their labels and timestamps.

6.2. Simulated results do not involve the same conditions as actual trading. They can benefit from hindsight and may omit or simplify fees, taxes, liquidity, slippage, partial fills and practical execution constraints. Actual results may differ materially.

6.3. Targets and projected gains or losses are conditional calculations, not promises. No statement in this agreement permits misleading advertising or removes the Company's obligations concerning the accuracy and presentation of its claims.

7. WAITLIST AND COMPLIMENTARY ACCESS

7.1. Waitlist registration is free and records interest in launch updates and invitations under the consent presented at signup. It does not create a trading account, start a paid subscription or trial, or grant app access.

7.2. Invitations and complimentary access are offered separately and state their conditions. A waitlist registration does not guarantee selection, a launch date, a price or a particular position in an access queue. A free invitation does not authorize a later charge without a separate purchase authorization.

8. PURCHASES, SUBSCRIPTIONS AND PASSES

8.1. Before purchasing, review the price, currency, taxes, included features, duration, trial conditions, renewal terms and cancellation instructions displayed at checkout. The purchase provider's applicable terms also apply.

8.2. Recurring subscriptions renew according to the terms accepted at checkout unless canceled through the provider used for purchase. Manage web purchases through the available account or payment-provider controls and app-store purchases through Apple App Store or Google Play. Deleting the app does not cancel a subscription.

8.3. A one-time pass is not a recurring subscription. Its activation, duration and expiration follow the terms shown at purchase. Where a pass uses elapsed time, its countdown continues while the app is closed. A period of access does not guarantee an entry event or market opportunity during that period.

8.4. Refund requests follow the applicable purchase provider's process and mandatory legal rights. Price changes apply prospectively with notice and any consent required by law or the purchase provider. Nothing here waives mandatory cancellation, refund or consumer rights.

9. PERMITTED USE AND INTELLECTUAL PROPERTY

9.1. Subject to this agreement and your authorized access, the Company grants a limited, personal, non-exclusive and non-transferable license to use the Service. The Company and its licensors retain their rights in the software, algorithms, interface, branding and protected content. Third-party data remains subject to its applicable licenses.

9.2. Do not resell or share account access; redistribute restricted signals or feeds; bulk-extract data without permission; bypass access controls; remove proprietary notices; or copy, modify or reverse engineer protected software except where applicable law expressly permits it.

9.3. Protect genuinely confidential information that is not public and that you receive through authorized access. This provision does not designate every market fact or all publicly available information as a trade secret.

9.4. You may keep reasonable records for your personal use and provide information to your professional advisers, regulators or courts as permitted by law. Nothing here restricts honest reviews, lawful criticism, reporting suspected violations, legally protected disclosures or applicable fair-use rights. Do not disclose another person's private information or credentials.

9.5. Commercial redistribution, affiliate promotion or use of Company branding beyond permissions granted by law requires a separate written authorization. Contact contact@aaronview.com. An authorization to promote the Service does not authorize investment management or trading for others.

9.6. For a violation, the Company may seek remedies available under applicable law, including relief to stop unauthorized redistribution and recovery of proven damages where appropriate. This agreement does not impose an automatic per-review or per-screenshot penalty.

10. USER CONTENT, FEEDBACK AND TESTIMONIALS

10.1. You retain ownership of content you submit. You grant only the permission reasonably needed to process that content to provide the feature or support you requested. You must have the necessary rights to submit it.

10.2. Permission to use your name, image, voice or testimonial in advertising must be obtained separately. Sending a support message or posting a review does not automatically grant perpetual advertising rights. The Company may not misrepresent your experience or use this agreement to suppress an honest review.

10.3. Individual testimonials are not a guarantee of typical or future results. Any compensation or material relationship connected to a promotional testimonial must be disclosed as required by law.

11. PRIVACY AND COMMUNICATIONS

11.1. The Privacy Policy at <https://www.aaronview.com/legal/privacidade.html> explains relevant collection, use, providers and privacy requests. Account, consent and technical records may be processed to operate and secure the Service and document agreement acceptance.

11.2. Keep broker credentials and passwords out of support messages. Authorize a broker connection only through its designated secure flow. You can contact contact@aaronview.com with privacy, correction or deletion requests, subject to identity verification and applicable retention obligations.

11.3. Waitlist email consent does not enroll you in SMS. SMS, where available, requires separate enrollment and consent; consent is not a condition of purchase. Frequency varies, and message and data rates may apply. Reply STOP to stop SMS or HELP for assistance. Contact us or reply to a launch email to request removal from waitlist updates.

12. THIRD-PARTY PROVIDERS

12.1. Brokers, market-data sources, payment providers, app stores and communication services operate independently under their own terms. Their availability and decisions may affect the Service. The Company does not control their execution, margin requirements, fees or solvency.

12.2. Your broker controls order acceptance and execution and maintains your brokerage records. Displaying a third-party name, logo, device or chart does not imply an endorsement or partnership. Any actual relationship must be described accurately.

13. WARRANTIES AND LIMITS

13.1. To the extent permitted by applicable law, the Service is provided "as is" and "as available," without implied warranties of merchantability, fitness for a particular purpose or non-infringement. We do not guarantee uninterrupted access, accurate data, timely notifications or profitable results.

13.2. Nothing in this agreement excludes an express commitment made at purchase or a warranty, duty or remedy that applicable law does not permit us to exclude. The Company remains responsible to the extent required by applicable law.

14. LIMITATION OF LIABILITY

14.1. To the extent permitted by applicable law, the Company and its officers, members, employees, contractors and suppliers are not liable for indirect, incidental, special or consequential damages, including lost profits or opportunities, arising from use or unavailability of the Service.

14.2. To the extent permitted by applicable law, aggregate liability arising from the Service is limited to the greater of the amount you paid the Company for the Service during the three months preceding the event giving rise to the claim or US\$100.

14.3. These limitations do not exclude or restrict liability for fraud, willful misconduct or any liability, securities-law remedy or consumer right that cannot lawfully be excluded or limited. If a limitation is not permitted in your jurisdiction, it applies only to the extent permitted there. No provision guarantees that a claim cannot be brought.

15. MISUSE AND THIRD-PARTY CLAIMS

15.1. Do not use the Service unlawfully, infringe others' rights, compromise security or misrepresent your identity or authority. The Company may investigate suspected misuse and take proportionate protective action.

15.2. To the extent permitted by law, you are responsible for third-party claims and reasonable costs caused by your unlawful use, intentional misconduct or material breach of this agreement. This obligation does not cover claims caused by the Company's own misconduct or impose liability merely because you made an unsuccessful trade or an honest review.

16. SUSPENSION AND TERMINATION

16.1. We may suspend or terminate access for material breach, suspected unauthorized access, a security risk, nonpayment or a legal requirement. Where practicable and appropriate, we will explain the issue and provide an opportunity to resolve it. Urgent protective action may be taken without advance notice.

16.2. You may stop using the Service at any time. Cancel any recurring purchase separately through the relevant purchase provider. Termination does not remove mandatory refund rights or obligations already incurred.

16.3. Provisions concerning accrued obligations, ownership, lawful remedies, liability limits, dispute resolution and retained records continue to the extent their nature requires. Termination does not waive any non-waivable right.

17. QUESTIONS AND DISPUTES

17.1. Contact contact@aaronview.com with a description of a concern and the resolution requested so we can attempt to resolve it. This request does not prevent urgent court relief, a regulatory complaint, small-claims proceedings or exercise of a mandatory right, and does not shorten a legal deadline.

17.2. This version does not create a mandatory arbitration agreement or a class-action or jury-trial waiver. A different dispute-resolution process would require a separate valid agreement and compliance with applicable law. This version

applies prospectively and does not automatically rewrite acceptance records or resolve the effect of earlier agreements on earlier disputes.

18. GOVERNING LAW

18.1. Utah law governs this agreement to the extent consistent with mandatory protections applicable where you live. Any permitted court proceeding must be brought in a court with jurisdiction under applicable law. This provision does not remove mandatory consumer protections or require a venue prohibited by applicable law.

19. CHANGES AND GENERAL PROVISIONS

19.1. Material revisions will carry a new version and updated date. We will provide notice as required and request affirmative acceptance of a new app agreement before treating it as accepted. Previously recorded decisions remain associated with the version actually presented.

19.2. If a provision cannot be enforced, it is limited or severed to the extent necessary; the remainder continues where lawful. This agreement, the applicable purchase terms and incorporated Privacy Policy govern their respective subjects. Mandatory law prevails over conflicting provisions.

19.3. Failure to enforce a provision is not a waiver. Neither party is liable for a failure caused by events beyond its reasonable control to the extent permitted by law, without removing mandatory payment, refund or consumer obligations. Notices may be delivered through the Service or the account email where legally permitted.

20. CONTACT AND ACKNOWLEDGMENT

AARON View LLC

Utah, United States

Email: contact@aaronview.com

Website: <https://www.aaronview.com>

By selecting "I agree," you confirm that you have read and agree to this version of the AARON Terms of Service and User Agreement, including the risks, access conditions, use restrictions and limitations subject to applicable law. Declining does not authorize any charge or trade.
